1. Response Section 1 – Executive Summary

submit this proposal in response to **Tarrant County's Request for Proposal (RFP No. F2026035)** for **Information Technology Staffing Augmentation Services**. We understand that Tarrant County requires a **dependable staffing partner** capable of providing highly qualified IT professionals to support a broad range of projects and operational initiatives on an as-needed basis, while maintaining strict compliance with **security, confidentiality, and performance requirements**.

About Radixsol:

Radixsol is a leading provider of **IT staffing and consulting solutions**, specializing in delivering **highly skilled technology professionals** to government and enterprise clients. With years of experience in **public-and Private sector IT environments**, we have developed a deep understanding of **regulatory compliance, governance frameworks, and operational continuity requirements**. Our approach combines **agility, security, and accountability**, ensuring that every engagement meets the highest standards of quality and reliability.

Key strengths that differentiate Radixsol:

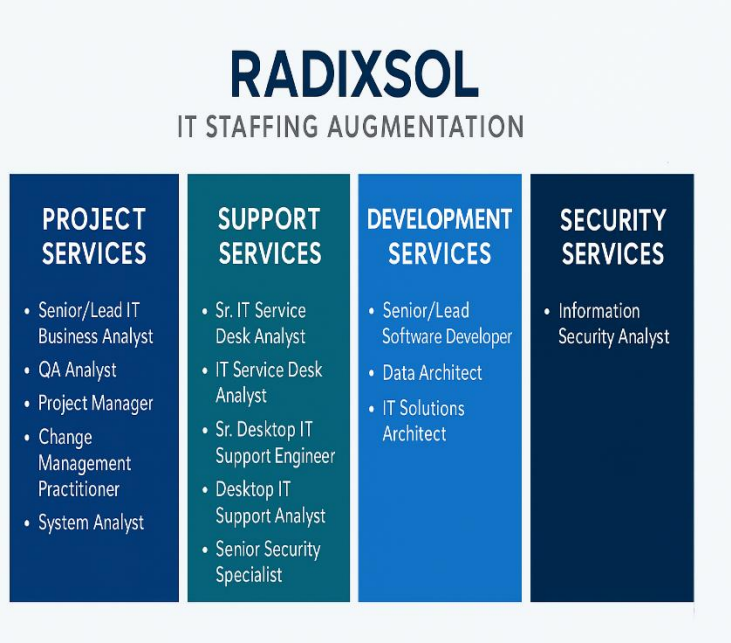
- **Security-First Approach:** Processes aligned with **CJIS standards**, County security policies, and strict confidentiality protocols.
- **Rapid Response Model:** Guaranteed candidate submissions within **two business days**.
- **Local Engagement:** Dedicated **DFW-based team** for onsite support and relationship continuity.
- **Operational Excellence:** Structured knowledge transfer and proactive engagement management to minimize disruption.

Comprehensive Service Delivery:

Radixsol's service delivery model is structured to provide **timely responses, consistent quality, regulatory compliance, and local engagement**. Services will be delivered across all functional areas defined in the Scope of Work, including:

- **Project Services**
- **Support Services**
- **Development Services**
- **Security Services**

We will supply personnel who meet or exceed the **education, experience, and skill requirements** identified for each labor category.



Our Process

- **Rapid Response:** Upon receipt of a Staff Augmentation Request, Radixsol immediately assigns the requirement to role-aligned recruiting resources. Candidates are screened against

the County's defined responsibilities, required skills, and onsite work expectations. Within **two (2) business days**, we submit **two best-fit candidate profiles**, each including a résumé and a completed background check form, in accordance with County requirements.

- **Compliance & Security:** For selected candidates, Radixsol coordinates **CJIS-based background checks**, reviewed and approved by the Tarrant County Information Security Officer, in accordance with County policy. We also support County interviews, onboarding activities, and background check coordination for selected candidates.
- **Engagement Management:** Each assigned consultant is actively managed throughout the engagement. Radixsol ensures **weekly status reporting**, compliance with Tarrant County Information Security policies, and adherence to confidentiality and non-disclosure requirements.
- **Knowledge Transfer:** We implement structured knowledge transfer activities, including documentation, collaboration with County staff, and reporting of knowledge transfer progress to County management. These activities include **testing and evaluation of transferred knowledge** and formal reporting of outcomes to ensure continuity and long-term operational effectiveness.

Local Presence

Radixsol maintains a **dedicated DFW-based team** to support local engagement, including in-person meetings, onsite onboarding support, and ongoing coordination with County representatives.

Commitment to County Policies

Radixsol acknowledges and fully supports:

- The County's right to **directly hire consultants after 1,080 billed hours or six (6) months** of service without placement fees.
- Ownership of all deliverables as **works made for hire**, ensuring full intellectual property rights remain with Tarrant County.
- Adherence to **branding guidelines** and **WCAG 2.1 AA accessibility standards** for any public-facing content, as required by County policy.

2. Response Section 2 – Company Profile

2.1. Company Overview

Radixsol is a **government-focused Information Technology staffing and consulting firm** providing qualified professionals and technical staffing support to public-sector and enterprise clients across the United States. Incorporated in **2023** as a privately owned **S-Corporation**,

Radixsol is a **certified Minority Business Enterprise (MBE)**, **Women Business Enterprise (WBE)**, and **Certified Small Business**, delivering scalable and cost-effective **IT staffing augmentation and contingent workforce solutions**.

Headquartered in **Folsom, California**, with multiple offices across the United States, Radixsol supports clients across a wide range of industries, including **Information Technology, Healthcare, Transportation, Banking and Finance, Engineering, Utilities, Infrastructure, Education, Housing, Real Estate, Construction, and Aerospace**. Radixsol has experience providing staffing and technical support services to public-sector and enterprise organizations, including engagements supporting **state agencies, regulated entities, and large commercial enterprises**.

Radixsol's delivery model is grounded in a strong understanding of **public-sector governance, regulatory compliance, data security, and performance accountability**. The firm is experienced in supporting **compliance-driven and mission-critical initiatives**, and its teams are structured to operate as an extension of client staff bringing cross-disciplinary expertise, responsive service delivery, and disciplined performance management.

With a growing global workforce and a strong operational foundation, Radixsol emphasizes **responsiveness, quality assurance, and local engagement**, supported by structured recruiting processes, service-level metrics, and a **security-first approach** to staffing delivery.

2.2. Years in Business

Radixsol has been operating successfully for **three (3) years**, delivering IT staffing services to county-level, state-level, healthcare, and enterprise clients. During this period, Radixsol has supported engagements in regulated and compliance-driven environments requiring strict adherence to security, privacy, and performance standards.

2.3. Key Personnel Assigned to the Project

Radixsol has assigned experienced leadership personnel to support this engagement. These individuals will participate in the solicitation and, if awarded, will provide ongoing oversight of recruiting, delivery, compliance, and service-level performance. All key personnel serve in **non-billable leadership roles** and will not be assigned as onsite County consultants.

Kamal Singh – Vice President, Talent Acquisition (Key Personnel)
Role in the Company:
Kamal Singh serves as Vice President, Talent Acquisition, providing executive leadership for recruiting strategy, candidate quality assurance, vendor and subconsultant management, and workforce planning. He brings over **25 years of experience** supporting public-sector, utilities, healthcare, and enterprise staffing programs, with a proven record of building scalable sourcing strategies, rapid deployment models, and KPI-driven recruiting frameworks.
Planned Participation in the Solicitation and Contract: Mr. Singh will participate in the solicitation and, if awarded, will oversee recruiting operations, ensure adherence to service-level requirements, support compliance with County policies, and provide escalation management and performance reviews. He will guide recruiting strategy, candidate quality controls, and vendor partnerships to ensure timely and compliant staffing delivery throughout the contract term.

Sagar Chadha – Senior Director, Recruitment and Operations (Key Personnel)
Role in the Company:

Sagar Chadha serves as Senior Director, Recruitment and Operations at Radixsol, providing operational leadership for staff augmentation engagements across regulated and compliance-driven environments. He brings extensive experience in **recruitment operations, workforce management, and delivery oversight**, with a strong background supporting healthcare and regulated staffing programs across the United States.

Mr. Chadha has hands-on experience managing full recruitment life cycles, including sourcing, screening, placement, onboarding coordination, training support, and performance evaluation. His expertise includes leveraging **advanced sourcing platforms** such as LinkedIn Recruiter, niche job boards, talent pools, and social media platforms, as well as managing **vendor and subconsultant relationships** and supporting **rapid deployment models** for time-sensitive and high-volume staffing needs.

Planned Participation in the Solicitation and Contract:

Mr. Chadha will participate in the solicitation and, if awarded, will support contract execution by overseeing recruiting operations, coordinating candidate sourcing and screening activities, managing vendor and subconsultant relationships, and supporting rapid-response staffing requirements. He will work closely with Radixsol's recruiting and delivery teams to ensure timely submissions, onboarding coordination, and adherence to service-level performance standards.

Additional Key Roles

Radixsol will also assign the following roles to support contract execution:

- **Account Manager (DFW-based):** Primary point of contact for Tarrant County; responsible for coordination, issue resolution, and client communication.
- **Recruiting Lead:** Manages candidate sourcing, screening, and submission timelines.
- **Compliance Coordinator:** Oversees background checks, confidentiality requirements, and alignment with County security policies.
- **Delivery Manager:** Manages onboarding coordination, weekly reporting, and knowledge transfer activities.

Résumés for key personnel assigned to this project are included with this response. Applicable certifications are provided where held.

2.4. Service Level Performance Tracking and Reporting

Radixsol tracks and reports service-level performance statistics to ensure accountability and consistent delivery. Performance management includes:

- **Submission SLA:** Two (2) qualified candidate résumés submitted within two (2) business days of a Staff Augmentation Request.
- **Quality Metrics:** Interview-to-offer ratios and early-engagement performance indicators.
- **Operational Reporting:** Weekly status reports, issue and risk tracking, and knowledge transfer progress updates.

Performance statistics are reviewed regularly by Radixsol leadership and reported to Tarrant County to ensure compliance with service expectations and support continuous improvement.

2.5. Security Standards and Protection of Privacy and Confidentiality

Radixsol enforces strict security standards to protect the privacy and confidentiality of data throughout all engagements. Security practices are aligned with:

- **CJIS Security Policy** for background checks and sensitive data handling.
- **Tarrant County Information Security policies** governing access controls and engagement management.

- **HIPAA and HITECH regulations** for initiatives involving protected health information (PHI).
- **WCAG 2.1 Level AA accessibility standards** for any public-facing digital content, as required by County policy.

All personnel are required to comply with confidentiality and non-disclosure obligations and applicable security controls.

2.6. Experience with HIPAA and HITECH Compliance

Radixsol has supported healthcare and public-sector staffing engagements requiring **HIPAA and HITECH compliance**, including programs involving secure handling of protected health information (PHI) within regulated IT environments. These engagements required coordination with compliance and security stakeholders and strict adherence to privacy, access control, and data protection standards.

3. Resume

3.1. Resume-Kamal Singh

Education / Certification / Training/Awards
Engineering in Electronics & Telecommunication – University of Pune
Skills
o Advanced Talent Sourcing (LinkedIn Recruiter, niche job boards, talent communities) o Public Sector & Utilities Recruitment o Lean Six Sigma, ERM, Sustainability & Data Governance Talent o Emergency & FEMA-Certified Staffing Models o California Labor Compliance & Diversity Programs (SBE/DVBE/WBE/MBE) o Vendor & Subconsultant Management o Rapid Deployment & High-Volume Hiring o Recruiting Metrics, KPIs & Workforce Planning
Professional Experience
Radixsol – Vice President, Talent Acquisition **Nov 2024 – Present** o Led technical and leadership recruitment initiatives for public-sector, utilities, healthcare, and enterprise programs. o Sourced and deployed specialized professionals including Lean Six Sigma experts, data governance leaders, sustainability specialists, and emergency-response personnel. o Ensured alignment with California labor regulations and diversity hiring goals across client programs. o Built vendor and subconsultant partnerships to support niche and rapid-response staffing requirements. o Established KPIs and data-driven recruiting frameworks to support executive decision-making. **Raisso Inc – Vice President, Talent Acquisition** **May 2019 – Oct 2024** o Directed large-scale recruiting operations supporting regulated and compliance-driven environments. o Successfully sourced and placed highly specialized professionals including ERM specialists, IT governance leaders, and compliance-focused talent. o Implemented rapid deployment recruiting models to support urgent and critical staffing demands. o Managed supplier and subconsultant relationships for specialized and hard-to-fill roles. o Ensured workforce strategies aligned with regulatory, compliance, and diversity objectives. **AgreeYa – Global Director, Talent Acquisition** **May 2015 – Apr 2019** o Built global sourcing strategies for technical, leadership, and public-sector aligned roles.

- Led sourcing initiatives for sustainability, analytics, governance, and engineering talent.
- Developed diverse talent pipelines aligned with client and regulatory diversity expectations.
- Partnered with vendors and community organizations to deliver specialized and compliant talent solutions.
- Used market intelligence and analytics to close critical skill gaps efficiently.

4. Response Section 3 – Transition and Operational Plan

4.1. Objective and Operating Model

Radixsol's operational model is designed to ensure Tarrant County receives **high-quality technical support staff and consultants quickly**, with consistent screening standards, clear communication, and compliance with County security and confidentiality expectations. The model combines (1) **rapid response staffing**, (2) **quality-focused screening and validation**, and (3) **operational controls** that support secure onboarding, continuity, and performance accountability.

4.2. Recruiting and Sourcing Methods

Radixsol uses a multi-channel, role-specific sourcing approach to consistently deliver qualified candidates across project, support, development, and security functions.

Sourcing Channels

Radixsol sources candidates through the following methods (combined to maximize speed and quality):

- **Internal candidate pipelines** built from prior placements and pre-screened talent communities.
- **Advanced sourcing platforms** (e.g., LinkedIn Recruiter and targeted professional networks) and curated technical communities.
- **Niche job boards and specialty groups** aligned to the labor categories in the Scope of Work (e.g., QA, project management, business analysis, cybersecurity).
- **Referral programs** (employee and consultant referrals) with role-based screening gates.
- **Partner/vendor network** for surge capacity and specialized hard-to-fill skills, with the same screening requirements applied.

Role-Aligned Recruiting Model

Each County Staff Augmentation Request is assigned to a **role-aligned recruiting pod** (e.g., Security, Application Development, QA, Project/BA). This prevents generalized sourcing and ensures candidates are screened by recruiters familiar with:

- Required skills and tools (e.g., Agile/Scrum, SDLC, test automation, project governance)
- Public-sector work expectations (documentation, controls, approvals, reporting discipline)
- Onsite/hybrid expectations and client environment fit

Building a "Ready Bench"

To reduce cycle time while maintaining quality, Radixsol maintains a "ready bench" of pre-screened candidates for recurring needs:

- Business Analysts / Systems Analysts
- QA Analysts (manual + automation)
- Project Managers
- Developers / Engineers
- Security Analysts and related roles

This bench is continuously refreshed with pipeline health metrics (active contacts, qualified submittals, response rates, time-to-submit performance).

4.3. Quality Assurance Screening Process

Radixsol's screening process is designed to validate that each submitted candidate is technically qualified, communication-ready, and aligned with County expectations.

Multi-Step Screening Gates

Candidates pass through the following gates before submission:

1. **Resume qualification** against the County's role requirements (skills, years, tools, certifications where applicable)
2. **Recruiter screening interview** (experience verification, behavioral fit, onsite expectations, availability)
3. **Technical screening** appropriate to the role (structured Q&A, scenario questions, or role-based validation)
4. **Experience verification** (projects, outcomes, tools used, responsibilities, and constraints)
5. **Professionalism and communication check** (public-sector documentation and stakeholder interaction readiness)
6. **Compliance pre-check** (eligibility to proceed to required background checks and County onboarding requirements)

Candidate Submission Package Quality

To support fast County review and reduce interview churn, Radixsol provides a complete submission package that includes:

- Candidate resume (formatted for clarity and completeness)
- Role-fit summary mapped to required skills
- Availability / start date confirmation
- Work location confirmation (onsite/hybrid as required)
- Background documentation requirements (as applicable)

4.4. Turnaround Commitments and Delivery Cadence

Radixsol's operational plan is built to meet the County's responsiveness expectations:

- **Two (2) best-fit candidate profiles within two (2) business days** for each Staff Augmentation Request (unless the County requests otherwise for niche roles)
- Delivery cadence includes same-day acknowledgment, role clarification (if needed), sourcing launch, screening, and structured submission

Performance is monitored using internal SLAs (time-to-source, time-to-screen, time-to-submit) and reported through the weekly operating cadence described below.

4.5. Security, Privacy, and Personnel Controls During Onboarding

Radixsol's onboarding support aligns with the County's security and confidentiality requirements and the nature of work involving sensitive information. For environments involving Criminal Justice Information, the **CJIS Security Policy applies to contractors and others with access to or supporting criminal justice information systems**.

Radixsol supports County-directed onboarding steps including:

- Background check coordination and documentation support (including CJIS-based checks when required by the County)
- Execution of confidentiality and non-disclosure requirements

- County-directed access request coordination to ensure **least privilege** and controlled provisioning consistent with security best practices (e.g., access control and identity controls).

4.6. Operational Management After Placement

Radixsol's operations model continues after a consultant starts to ensure continuity, performance, and accountability.

Weekly Operating Cadence

Radixsol provides a structured weekly cadence with County stakeholders that includes:

- Status updates and issue tracking
- Staffing pipeline review (open requests, in-progress roles, submissions)
- Performance feedback loop (consultant performance, improvements, replacements if required)
- Knowledge transfer progress (where applicable)

Escalation and Issue Resolution

Radixsol uses a defined escalation path to resolve issues quickly:

- **Level 1:** Account Manager / Delivery Manager response (same business day)
- **Level 2:** VP oversight for persistent delivery issues, SLA risk, or escalations
- **Corrective action** may include additional screening gates, replacement sourcing, or revised role intake to improve fit and success rate

4.7. Performance Statistics Tracking and Reporting

To ensure transparency and continuous improvement, Radixsol tracks and can report the following performance statistics:

- **Submission SLA compliance** (2-business-day delivery rate)
- **Interview-to-offer ratio** (quality indicator)
- **Start rate** (offers accepted vs. starts)
- **Early performance indicators** (first 30/60/90 day feedback trends)
- **Backfill speed** (if replacement is required)

These metrics are reviewed internally and shared with the County as part of governance and performance management.

4.8. Knowledge Transfer Support

While Section 3 focuses on recruiting and sourcing methods, Radixsol also supports continuity by ensuring consultants follow a structured knowledge transfer approach where applicable:

- Documentation of processes and deliverables
- Collaboration with County staff for transition readiness
- Handover checklists and validation steps to confirm knowledge transfer completion

4.9. Offboarding and Transition-Out Controls

To prevent disruption and protect County data, Radixsol supports County-directed offboarding with an operational checklist approach (access removal, asset return, documentation handoff). Best-practice guidance commonly emphasizes formal offboarding checklists including termination of facility and network access.

5. Response Section 4 – Experience

5.1. Firm Experience in Sourcing IT Technical Staff

Radixsol has experience sourcing and delivering **Information Technology technical staff** to both **public-sector and private-sector clients**. Our firm supports a broad range of IT staffing needs, including project-based roles, operational support positions, application development resources, quality assurance personnel, and security-related functions.

Radixsol's experience spans **county-level, state-level, healthcare, and enterprise environments**, with an emphasis on **regulated and compliance-driven settings**. Our firm applies consistent recruiting, screening, and performance management processes across all engagements to ensure quality, responsiveness, and alignment with client requirements.

6. Relevant Experience Within the Last Five (5) Years

6.1. Reference 1 # Daimanta

Reference 1 #Daimanta
Client Name: Daimanta **Project Name:** Workforce Expansion & Operational Transformation **Location:** 4944 Windplay Dr., Suite 265, El Dorado Hills, CA 95762 **Duration:** February 7, 2022 – Present (Approx. 3 years) **Completion Date:** Ongoing **Project Size:** $2.5M **Scope:** Sourcing personnel for Continuous Improvement, Risk Management, Sustainability, IT, and Emergency Management **Point of Contact:** Ryan Ray, Title: Point of Contact **Email:** ryan@daimanta.com **Phone:** 916-757-0677
Brief Description of Services Provided
Radixsol provided workforce augmentation and staffing support to Daimanta for multi-regional initiatives focused on **operational transformation, technology modernization, and risk governance**. Services included sourcing and deploying specialized professionals across **Information Technology, continuous improvement, enterprise risk management, sustainability, and emergency preparedness** functions. Radixsol sourced and supported Lean Six Sigma certified analysts and process improvement consultants who led structured process optimization initiatives using DMAIC methodologies. For risk management initiatives, Radixsol provided compliance and governance specialists who supported enterprise risk assessments, risk register development, and implementation of formal risk management frameworks. Radixsol also sourced IT professionals supporting **data governance, analytics, and technology modernization initiatives**, as well as FEMA-certified emergency management resources responsible for continuity planning, crisis coordination, and preparedness support.
Relevance
This engagement demonstrates Radixsol's ability to: o Source IT and technical professionals across multiple functional areas o Support regulated, multi-state environments requiring confidentiality and background checks

Reference 1 #Daimanta
○ Deliver staffing services aligned with **Project Services, Support Services, Development Services, and Security-related functions**
Knowledge Transfer & Performance Management
Radixsol implemented a structured engagement model that included: ○ Weekly status and issue reporting ○ Defined knowledge transfer documentation and handoff processes ○ Performance tracking through placement efficiency and delivery metrics The engagement achieved measurable outcomes, including improved placement efficiency, strengthened compliance tracking, and accelerated delivery of client initiatives.

6.2. Reference 2 # AgreeYa

Reference 2 # AgreeYa
Client Name: AgreeYa Solutions **Project Name:** National Workforce Expansion & IT Modernization Support **Location:** 605 Coolidge Dr #200, Folsom, CA 95630 **Duration:** Since 2020 – Present (Approx. 5 years) **Completion Date:** Ongoing **Project Size:** $1.8M **Scope:** Sourcing personnel for Continuous Improvement, Risk Management, Sustainability, Information Technology, and Emergency Management **Point of Contact:** Sanjay Khosla **Email:** sanjay.khosla@agreeya.com **Phone:** 916-705-0065
Brief Description of Services Provided
Radixsol partnered with AgreeYa Solutions to support nationwide staffing programs for **IT modernization and operational initiatives** serving public-sector and regulated enterprise clients. Radixsol sourced and delivered technical and professional staff supporting **application development, data governance, analytics, cloud modernization, risk management, and emergency preparedness** projects. The engagement included sourcing IT professionals with experience in cloud platforms, enterprise data management, and analytics solutions, as well as compliance specialists supporting enterprise risk frameworks. Radixsol also supported emergency preparedness initiatives by sourcing planners and coordinators with experience in continuity planning and crisis response.
Relevance
This experience aligns directly with the solicitation by demonstrating: ○ IT staffing augmentation for public-sector and regulated environments ○ Rapid sourcing and deployment of qualified technical professionals ○ Support for multiple service areas defined in the Scope of Work
Knowledge Transfer & Performance Management
Radixsol supported structured knowledge transfer by: ○ Coordinating documentation handoffs and transition support ○ Establishing standardized intake, escalation, and reporting workflows ○ Supporting client teams during transitions to ensure continuity

Reference 2 # AgreeYa
The engagement resulted in improved time-to-fill performance, enhanced operational readiness, and consistent compliance with client reporting expectations.

6.3. Reference 3 # MedTravel Nursing

MedTravel Nursing
Client Name: MedTravel Nursing **Project Name:** Nationwide Healthcare Staffing & Compliance Support **Location:** 4944 Windplay Dr., El Dorado Hills, CA 95762 **Duration:** Since 2020 – Present (Approx. 5 years) **Completion Date:** Ongoing **Project Size:** $2.2M **Scope:** Sourcing personnel for Continuous Improvement, Risk Management, Sustainability, Information Technology, and Emergency Management **Point of Contact:** Michael King, Vice President **Email:** michael@medtravelnursing.com | **Phone:** (408) 538-9779
Brief Description of Services Provided
Radixsol provided staffing augmentation and operational support to MedTravel Nursing for healthcare facilities across multiple states. Services included sourcing and deployment of professionals operating in **highly regulated environments**, with a focus on compliance, onboarding efficiency, and workforce readiness. In addition to staffing delivery, Radixsol supported **process improvements** related to onboarding, credentialing, and compliance tracking. Radixsol also provided operational support for **risk management, data systems support, and emergency preparedness**, including continuity planning and surge staffing during declared emergencies.
Relevance
This engagement demonstrates Radixsol's experience: o Operating in regulated environments governed by HIPAA and related standards o Supporting compliance-driven staffing models o Delivering rapid, scalable staffing solutions during emergency conditions
Knowledge Transfer & Performance Management
Radixsol implemented structured onboarding and transition processes that included: o Documentation of workflows and compliance requirements o Training and handoff support for permanent staff o Ongoing reporting and audit readiness These efforts resulted in improved onboarding timelines, strengthened compliance controls, and enhanced workforce readiness.

6.4. Reference 4 # Aya Healthcare

Aya Healthcare
Client Name: Aya Healthcare **Project Name:** Healthcare Staffing & Compliance Support **Address:** 5930 Cornerstone Court West, Suite 300, San Diego, CA 92121 **Contract Duration:** 2023 – Present **Type of Work:** Healthcare Staffing **Point of Contact:** Erica Smith

Aya Healthcare
Telephone: 949-356-6441 **Email:** Erica.Smith@ayahealthcare.com
Brief Description of Services Provided
Radixsol partnered with Aya Healthcare to provide **healthcare staffing and operational support** for client facilities across multiple states. The engagement focuses on sourcing, screening, and deployment of qualified healthcare professionals to meet both short-term and long-term workforce needs in **highly regulated environments**. Radixsol supports Aya Healthcare by delivering staffing resources aligned with client requirements, credentialing standards, and compliance expectations. Services include candidate sourcing, screening coordination, onboarding support, and workforce readiness activities to ensure timely placement while maintaining quality and regulatory adherence.
Relevance
This engagement demonstrates Radixsol's ability to: o Source and manage staffing resources in **regulated environments** o Support large-scale staffing operations with defined service-level expectations o Deliver staffing services requiring **confidentiality, background checks, and compliance controls** o Operate in environments governed by **privacy, security, and workforce regulations** The experience is directly relevant to the solicitation's emphasis on **staff augmentation, operational support, and compliance-driven service delivery**.
Knowledge Transfer & Performance Management
Radixsol supports structured operational controls throughout the engagement, including: o Coordination of onboarding and credentialing workflows o Documentation and knowledge sharing to ensure continuity of services o Performance tracking aligned with client service expectations o Ongoing communication to support issue resolution and workforce stability These practices have contributed to improved onboarding efficiency, consistent compliance outcomes, and reliable staffing delivery.

6.5. Reference 5 # ShiftMed

ShiftMed
Client Name: ShiftMed **Project Name:** Healthcare Staffing & Workforce Support Services **Address:** 7925 Jones Branch Drive, Suite 1100, McLean, VA 22102 **Contract Duration:** 2023 – Present **Type of Work:** Staffing **Point of Contact:** Edgar Garcia **Telephone:** (224) 955-2584 **Email:** edgar.garcia@shiftmed.com
Brief Description of Services Provided
Radixsol partnered with ShiftMed to provide **staffing and workforce support services** for healthcare facilities operating in regulated and high-demand environments. The engagement involves sourcing, screening, and coordinating qualified healthcare professionals to support both routine staffing needs and surge demand scenarios.

ShiftMed
Radixsol supports ShiftMed's staffing operations by delivering candidates aligned with role requirements, availability expectations, and compliance standards. Services include candidate sourcing, screening coordination, onboarding support, and ongoing workforce management to ensure continuity of care and operational stability.
Relevance
This engagement demonstrates Radixsol's ability to: o Deliver staffing augmentation services in **time-sensitive and regulated environments** o Support organizations with **high-volume staffing needs** o Operate within frameworks requiring **background checks, confidentiality, and data privacy** o Provide structured staffing support aligned with defined service-level expectations The experience directly supports the solicitation's focus on **staff augmentation, operational support, responsiveness, and compliance-driven service delivery**.
Knowledge Transfer & Performance Management
Radixsol supports structured operational controls throughout the engagement, including: • Coordination of onboarding workflows and credentialing requirements • Documentation and process knowledge sharing to support continuity • Performance tracking aligned with client staffing metrics and expectations • Ongoing communication and issue resolution to maintain service quality These practices have enabled reliable staffing delivery, improved workforce readiness, and sustained compliance with client standards.

7. Response Section 5 – Qualifications

7.1. Overview of Staff Qualifications

Radixsol maintains access to a broad pool of qualified IT professionals with the skills, experience, and credentials required to support the service areas defined in this solicitation. Staff are sourced and submitted **only in response to specific Staff Augmentation Requests**, ensuring alignment with Tarrant County's defined role requirements, technical needs, and work environment expectations.

All candidates undergo structured screening to verify education, experience, technical competency, and professional readiness prior to submission.

Examples of Qualified Staff and Skill Sets

Radixsol has experience sourcing and placing professionals with the following skills and qualifications, as applicable to role requirements:

Project & Program Services

- Project Managers and Program Managers with experience in public-sector and enterprise IT initiatives
- Certifications may include **PMP®, CAPM®, or Agile/Scrum credentials**, where required
- Experience with SDLC, governance, documentation, and stakeholder coordination

Business & Systems Analysis

- Business Analysts and Systems Analysts with experience gathering requirements, documenting processes, and supporting system implementations
- Experience with enterprise applications, reporting tools, and data workflows

Application Development & Support

- Application Developers and Engineers experienced in modern development frameworks and enterprise environments
- Experience supporting system maintenance, enhancements, integrations, and operational support

Quality Assurance & Testing

- QA Analysts with experience in manual and automated testing
- Familiarity with test planning, defect tracking, regression testing, and validation activities

Security & Compliance Support

- Security-focused technical staff experienced in access controls, system security support, and compliance-driven environments
- Ability to meet background check and security approval requirements, including CJIS-based checks where applicable

Certifications

Radixsol submits candidates with **role-appropriate certifications where required or preferred by the County**. Certifications are verified during screening and provided with candidate submissions when held. Radixsol does not assign or represent certifications unless they are held by the individual resource.

7.2. Sample Resources

All sample consultant profiles are anonymized to protect candidate confidentiality. Full resumes and identifying details will be provided upon request during evaluation or post-award.

Sample Resource 1 – Senior IT Business Analyst (Anonymized)

- **Total Experience:** 9 years
- **Public-Sector Experience:** 5+ years supporting county and state government IT initiatives
- **Engagement Type:** Onsite / Hybrid

- **Security & Compliance:** Eligible to complete CJIS-based background check
- **Availability:** Immediate

The sample resources above are representative of candidates Radixsol routinely submits for roles defined in Tarrant County's Scope of Work under this solicitation.

7.3. Quality Assurance

Candidate qualifications are validated through:

- Skills and experience verification
- Role-specific screening interviews
- Professional and communication readiness checks
- Eligibility to meet County onboarding and security requirements

This approach ensures only qualified, compliant candidates are presented for County consideration.

8. Response Section 6 – Sample Contract Documents

Radixsol understands the requirement to submit vendor-required sample contracts and/or agreements for the proposed services, including a Statement of Work (SOW), Enterprise Agreements, and Service Level Agreements (SLA).

At this time, Radixsol does not utilize standardized contract templates for staffing engagements, as contractual terms, formats, and conditions are typically governed by **client-specific requirements and public-sector procurement standards**.

Radixsol acknowledges and agrees that **Tarrant County's contract terms, conditions, and required templates shall govern** any resulting agreement under this solicitation. Radixsol is fully prepared to review, accept, and execute County-provided contract documents, including SOWs and SLAs, in accordance with County procurement policies and legal requirements.

Radixsol remains committed to collaborating with the County to finalize all contractual documentation in a timely and compliant manner upon contract award
